This memorandum is confirmation of a meeting called for January 15, 1975,
(Wednesday) at 8 p.m. at John's Workshop in Bonnington.

I would like to thank you all on behalf of Walter, for agreeing to
participate on the Committee to study this most interesting proposal.

I have attached directions of the school's location. There may possibly
be some problems in maneuvering the rather steep hill as it is not
plowed very frequently - John suggests if this is the case, cars can be
left at the bottom of the hill.
