Mr. John Barton, who resides at the former Dexter property in Bonnington, has submitted this very interesting proposal for a School of Creative Woodworking.

Both Dr. Fraser and I have met with John and felt that the proposal is worthy of further study.

Therefore, could I please ask for your participation as a formal committee to study this proposal as per the attached memo from Dr. Fraser. Furthermore, could we hold the initial meeting sometime prior to January 15, 1974, perhaps at John's workshop in Bonnington.

Thank you.

WU/jr
